

Crop & Food Research Plant-SyNZ recording sheet, student

Habitat being surveyed _____

Locality _____

Names of surveyors _____

Date of survey _____

Plot number [_____]

Asplenium oblongifolium (3) [tick if present _____] (Max search time _____)

d	Agromyzidae	Phytoliriomyza flavopleura	Sp code 32	[_____]	leaf miner
he	Aleyrodidae	Trialeurodes asplenii	Sp code 494	[_____]	whitefly adults mealy white, on old & young fronds with white wax, pupa with long fringe
he	Diaspididae	Pseudaulacaspis phymatodidis	Sp code 384	[_____]	white-capped scale, associated with ferns, usually on underside of fronds

Also may be present

he	Aphididae	Idiopterus nephrolepidis	Sp code 991	[_____]	feeds on young expanding fronds and causes distorted fronds
l	Blatrichedridae	Batrachedra sp. (<i>Asplenium sori</i> , Dugdale 1988)	Sp code 861	[_____]	underside of frond with webbing covered with fern spores, no holes through frond to upper side
l	Oecophoridae	Thylacosceles radians	Sp code 583	[_____]	underside of frond with webbing coated with spores, holes through frond and on upper side towers of spores

Abbreviations for major invertebrate groupings

a = Acari (mites)

d = Diptera (flies)

c = Coleoptera (beetles)

he = Hemiptera (sucking insects)

l = Lepidoptera (moths & butterflies)

th = Thysanoptera (thrips)

Plant species herbivore list

Thursday, 2 October 2003
